

MUHAMMAD ABUBAKAR

Full-Stack Developer | Python · Django · React · FastAPI · AI Integration · Cybersecurity
Islamabad, Pakistan · +92 332 8534807 · m.abubakar.prof@gmail.com · [LinkedIn](#) · [GitHub](#) · [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with expertise in Python, Django, FastAPI, and React.js. Proven track record building end-to-end web applications — from RESTful API design and database optimization to responsive frontend interfaces. Delivered 35%+ backend performance improvements and 92% accuracy in AI-driven systems. Shipped a commercial POS billing platform and a live AI-powered security scanner to real clients. Skilled in integrating Machine Learning, Gemini API, and asynchronous task queuing (Celery + Redis) into scalable, production-grade full-stack solutions.

TECHNICAL SKILLS

Languages & Backend: Python, Java, JavaScript, C#, Django, Django REST Framework (DRF), FastAPI, Spring Boot, .NET, REST APIs

Frontend & Scraping: React.js, Tailwind CSS, WinForms, Selenium, BeautifulSoup, HTML5, CSS3

Databases & DevOps: PostgreSQL, MySQL, Firebase, Docker, Git, Celery, Redis, Entity Framework, CI/CD

AI & Security: Gemini API, Machine Learning, Vulnerability Detection, JWT, ReportLab

PROFESSIONAL EXPERIENCE

Full-Stack AI Developer (Intern) | NCCS, Air University, Islamabad

Jul 2025 – Sep 2025

- Architected full-stack AI image analysis system — FastAPI backend + React.js frontend — processing **5,000+ images** at **92% accuracy** using Gemini API
- Engineered RESTful APIs with query optimization reducing analysis time by **40%**; built interactive real-time analytics dashboard
- Implemented forensic image tampering detection achieving **95% precision** across **1,000+ images**

Backend Developer (Intern) | NCCS, Air University, Islamabad

Jul 2024 – Aug 2024

- Built secure Django REST Framework APIs for authentication and account management handling **500+ requests** with **99.5% uptime**
- Architected data annotation pipeline for **8,000+ datasets**; optimized backend queries reducing API response time by **35%**

KEY PROJECTS

Intrusion Eye — AI Web Vulnerability Scanner (FYP) [GitHub](#) [Live](#) — Django · React · PostgreSQL · Celery · Redis · Gemini API · MLJan – May 2025

- Full-stack AI scanner: Django REST backend + React frontend detecting SQLi, XSS, CSRF via ML payload classification (**85% accuracy**); live at intrusioneye.vercel.app
- Selenium + BeautifulSoup crawling engine; JWT auth, OTP verification; Gemini chatbot; async Celery + Redis task queue; ReportLab PDF reports

POS Billing System — Desktop Billing Platform [GitHub](#) — C# · .NET · Entity Framework · WinForms

Jan – May 2024

- Delivered commercial desktop billing product to client; role-based authentication streamlining checkout for **500+ daily sales** with tiered admin reporting dashboards
- Engineered clean 3-tier architecture with custom business logic validators, automated entity mapping, and optimized repository patterns

Image Forensic & Sentiment Analysis [GitHub](#) — FastAPI · React.js · Gemini API · ML

Jul – Sep 2025

- Full-stack AI pipeline: FastAPI backend + React.js dashboard processing **5,000+ images** at **92% accuracy**; tampering detection at **95% precision**

Wheel and Deal — E-Commerce Vehicle Platform [GitHub](#) — HTML5 · CSS3 · JavaScript · PHP · MySQL

Aug – Dec 2024

- Engineered full-stack e-commerce platform with **200+ dynamic listings**; **1,000+ monthly transactions**; **45% engagement improvement**

MedLo — Mobile Healthcare Application [GitHub](#) — Java · Android SDK · SQLite · Firebase

Mar – Jun 2024

- Full-stack mobile app for **500+ users** with **98% notification delivery rate**; increased medication adherence by **30%**

EDUCATION & CERTIFICATIONS

Bachelor of Science in Information Technology — National University of Modern Languages (NUML), Islamabad | CGPA: 3.08 / 4.0 *Graduated: June 2026*

Certifications: Python 101 for Data Science — IBM (2024) · Data Science 101 — IBM (2024) · JavaScript Fundamentals (2024) · Python Basics (2023) · Digital Marketing — Google Digital Garage (2022)
