SUMMARY

Motivated and detail-oriented BS Information Technology student at NUML Islamabad with strong academic performance and hands-on experience in web development, programming, and cybersecurity. Proven ability to lead and collaborate on impactful projects, including an AI-based web vulnerability detection system and multiple responsive websites using modern web technologies. Active leader and event organizer as Head of the departmental society, with over 10+ successful technical events. Skilled in C++, Java, HTML, CSS, JavaScript, PHP, and Python, with certifications in data science and digital skills from IBM and UniAthena.

PROFESSIONAL EXPERIENCE

Internship in Django – National Center for Cyber Security, Air University, Islamabad, Pakistan July 2024 – August 2024

- Worked on a project titled Social Media Forensics.
- Handled tasks related to annotation of data, data gathering from various sources, and creation of Python-based APIs for user authentication and management.
- Utilized Django framework to develop secure and scalable backend components.
- Demonstrated strong design thinking, problem-solving, and a self-motivated approach to learning and delivering results on time.

PROJECTS

Console-Based Car Showroom – C++ Sep 2022 – Feb 2023

- Developed a console-based showroom management system using fundamental C++ concepts.
- Enabled users to rent or purchase vehicles through a simple text-based interface.

Java GUI E-Commerce Platform Feb 2023 – June 2023

- Designed and implemented a graphical e-commerce application using Java Swing components.

Wheel and Deal – Showroom Website Sep 2024 – Feb 2025

- Created a fully responsive showroom website using HTML, CSS, JavaScript, and PHP with XAMPP.
- Integrated backend database for vehicle listings and user interactions.

Mini Projects – Rock Paper Scissors & Calculator

- Developed interactive mini-games and tools using HTML, CSS, and JavaScript.

Ongoing

Medicine Reminder – Mobile App (Java)

- Building an Android application that reminds users to take medicine on time with notification features.
- Developed using Java and Android SDK.

Ongoing

Flex-Start – Resume Maker Website

- Developing a modern resume builder with templates using HTML, CSS, JavaScript, and PHP (XAMPP).

Ongoing

Intrusion Eye – AI-Based Cyber Security Tool (FYP)

- Final Year Project focusing on detecting web vulnerabilities such as SQL Injection, XSS, and CSRF attacks.
- Leveraging AI and machine learning to generate smart payloads and automate threat detection.

SKILLS

- | | | |
|----------------------------------|---------------------------------|--------------------------|
| • HTML5, CSS3, JavaScript (ES6+) | • Python | • C++ , Java |
| • SQL (DBMS) , GitHub | • Mobile App Development (Java) | • Responsive Web Design, |

CORE CS & SOFTWARE CONCEPTS

- | | | |
|-------------------------------|----------------------------|----------------|
| • Object-Oriented Programming | • Project Management | • UML Diagrams |
| • Database Management Systems | • Requirements Engineering | |

CERTIFICATIONS

Python 101 for Data Science Issued: July 11, 2024

- CognitiveClass.ai (Powered by IBM Developer Skills Network)

Data Science 101 Issued: Sep 4, 2024

- CognitiveClass.ai (Powered by IBM Developer Skills Network)

Fundamentals of JavaScript Through Rock-Paper-Scissors Issued: Aug 15, 2024

- CognitiveClass.ai (Powered by IBM Developer Skills Network)

Basics of Python Issued: Aug 19, 2024

- UniAthena in partnership with Cambridge International Qualifications, UK
- Blockchain Verified Certificate ID: 8804-8308-3791

- UniAthena in partnership with Cambridge International Qualifications, UK
- Blockchain Verified Certificate ID: 1055-7387-1884

SOCIETAL & CO-CURRICULAR ACTIVITIES

- Documentation Head, Departmental Society (Software Engineering Department)
- National University of Modern Languages (NUML), Islamabad
- Led and organized over 10+ seminars, webinars, workshops, and departmental events.
- Managed cross-functional teams to deliver events related to Software Engineering, IT, and career development.
- Developed communication, leadership, and organizational skills through active engagement with students and faculty.
- Earned 10+ certificates as a result of active participation and leadership in these activities.

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY
NATIONAL UNIVERSITY OF MODERN LANGUAGES (NUML), ISLAMABAD
EXPECTED GRADUATION: JUNE 2026

- CURRENTLY ENROLLED IN 6TH SEMESTER

September 2022 - Present

INTERMEDIATE IN COMPUTER SCIENCE
BOARD OF INTERMEDIATE & SECONDARY EDUCATION RAWALPINDI

September 2019 - 2021
