

MUHAMMAD ABUBAKAR

Full-Stack Developer | Python · Django · React · FastAPI · AI Integration · Cybersecurity
Islamabad, Pakistan · +92 332 8534807 · m.abubakar.prof@gmail.com · [LinkedIn](#) · [GitHub](#) · [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer and Cybersecurity Specialist with expertise in Python, Django, FastAPI, and React. Proven track record architecting scalable REST APIs, AI-powered web applications, and automated vulnerability detection systems. Delivered 35%+ backend performance improvements and 92% accuracy in AI-driven analysis across real-world deployments. Adept at integrating Machine Learning, Gemini API, and asynchronous task queuing (Celery + Redis) into production-grade systems. Collaborative team player experienced in Agile workflows and cross-functional development.

TECHNICAL SKILLS

Languages & Backend: Python, Java, JavaScript, Django, Django REST Framework (DRF), FastAPI, Spring Boot, REST APIs

Frontend & Scraping: React.js, Tailwind CSS, Selenium, BeautifulSoup, HTML5, CSS3

Databases & DevOps: PostgreSQL, MySQL, Firebase, Docker, Git, Celery, Redis, CI/CD

AI & Security: Gemini API, Machine Learning, Vulnerability Detection, JWT, ReportLab

PROFESSIONAL EXPERIENCE

Full-Stack AI Developer (Intern) | NCCS, Air University, Islamabad

Jul 2025 – Sep 2025

- Architected AI-powered image analysis system processing **5,000+ images** with **92% accuracy** using FastAPI, React.js, and Gemini API
- Engineered RESTful APIs with query optimization reducing analysis time by **40%**; built interactive real-time analytics dashboard
- Implemented forensic image tampering detection achieving **95% precision** across **1,000+ images**

Backend Developer (Intern) | NCCS, Air University, Islamabad

Jul 2024 – Aug 2024

- Engineered secure Django REST Framework APIs for authentication and account management, handling **500+ requests** with **99.5% uptime**
- Architected data annotation pipeline processing **8,000+ datasets**; optimized backend queries reducing API response time by **35%**

KEY PROJECTS

Intrusion Eye — AI Web Vulnerability Scanner (FYP) [GitHub ↗](#) — Django · React · PostgreSQL · Celery · Redis · Gemini API · ML Jan – May 2025

- Built AI-powered scanner detecting SQL Injection, XSS, and CSRF vulnerabilities using ML payload classification (**85% accuracy**)
- Developed Selenium + BeautifulSoup crawling engine; engineered async scheduling with Celery + Redis for real-time progress tracking
- Implemented JWT authentication, OTP verification; integrated Gemini-powered security chatbot; generated PDF reports via ReportLab

Image Forensic & Sentiment Analysis [GitHub ↗](#) — FastAPI · React.js · Gemini API · ML

Jul – Sep 2025

- Architected AI image analysis pipeline processing **5,000+ images** at **92% accuracy**; forensic tampering detection at **95% precision**

Wheel and Deal — E-Commerce Vehicle Platform [GitHub ↗](#) — HTML5 · CSS3 · JavaScript · PHP · MySQL

Aug – Dec 2024

- Engineered responsive platform with **200+ dynamic listings**; processed **1,000+ monthly transactions** with **45% engagement improvement**

MedLo — Mobile Healthcare Application [GitHub ↗](#) — Java · Android SDK · SQLite · Firebase

Mar – Jun 2024

- Developed medication reminder app for **500+ users** with **98% notification delivery rate**; increased medication adherence by **30%**

EDUCATION & CERTIFICATIONS

Bachelor of Science in Information Technology — National University of Modern Languages (NUML), Islamabad | CGPA: 3.10/4.0 *Graduated: June 2026*

Certifications: Python 101 for Data Science — IBM (2024) · Data Science 101 — IBM (2024) · JavaScript Fundamentals (2024) · Python Basics (2024) · Digital Marketing — Google Digital Garage (2024)
